Moaviz Qureshi

Full stack developer

As a tech enthusiast, I want to learn as much as I can. I believe that learning about my field is the only way to get me connected with the globalized world through the new emerging trends in my field which eventually can solve the real-time problems of any society. I have more than 2 years of experience in the field of development where I have worked with many technologies like Laravel, Codeigniter, Flutter, Ionic, PHP, HTML, CSS, and Javascript.
